COLTON FIRESTONE

SOFTWARE DEVELOPER

PROFESSIONAL SUMMARY

Creative and adaptable software developer with a background in healthcare and customer service. Skilled problem-solver with a strong ability to think outside the box and find innovative solutions. Although relatively new to the field, I have a passion for learning and am eager to apply my problem-solving skills to software development. Ready to contribute to a dynamic team and make a positive impact in the industry.

EMPLOYMENT HISTORY

MAR, 2022 - PRESENT

Sales Associate, REI, Roseville CA

- Provide excellent customer service by actively engaging with customers, understanding their needs, and recommending appropriate technical gear for outdoor activities such as climbing and camping.
- Create engaging product displays to attract customers and highlight key features and benefits of outdoor gear.

JUN, 2017 - NOV, 2019

Associate of Science Degree, Sierra College, Rocklin CA

Completed Associate of Science degree before pivoting towards software development. Strong problem-solving skills acquired during studies readily applicable to this new field.

SKILLS

Problem-solving

Attention to detail

Communication

Full-Stack Development

JavaScript

React

Node.js

Express.js

CSS

HOBBIES

As a software engineer with an art background, I'm fascinated by the interplay of form and function. This extends beyond the digital world, fueling my passion for crafting objects that meld art and utility. From handcrafting paint palettes to building custom climbing boards that optimize performance, I love the challenge of bringing ideas to life and merging aesthetics with functionality.
This love for design and problem-solving seamlessly translates into my software work, where I strive to develop elegant solutions that are as visually pleasing as they are functionally robust.
